

Goldfields Aeromodellers

We are blessed in Kalgoorlie with one of the best facilities in Australia for flying of all types of model aircraft. The weather in the gold fields is also probably more suited to all year round flying than anywhere else. If you are keen to have a go at aeromodelling then this is the place to do it. The days of the fragile balsa and tissue model are long gone; aircraft are strong and durable, engines are powerful and reliable. All classes of aeromodelling have never been so affordable.

Our club prides itself in being very beginner friendly and the more experienced fliers all regularly take time from flying their own aircraft to assist newcomers with setup and flight training to solo level. This ensures that you will spend the least amount of time and money to reach a level of skill that will allow you to enjoy the premier hobby for the new millennium.

Once you have displayed a competent solo level of flying you will receive full access to the facilities allowing you to enjoy some mid week flying at your leisure. Club fees provide you with access and third party insurance at any MAAA affiliated club in Australia and a monthly newsletter that provides you with the latest information about events occurring in WA. Joining the club also gives you a license to enter State or National competitions. Club rules and regulations have been kept to a bare minimum to maintain a relaxed but safe atmosphere for flyers and spectators.

Sunday is the most common day for club activities, However shift workers sometimes create midweek gatherings to suit their rosters. Activities usually start around 11:00am on Sundays and go through to around 4pm. There is no set program or flight roster, Fly at your leisure!.

FEES 2019-2020

Senior \$200 plus \$10 nomination fee

Junior \$70 No nomination fee

Above club fees also cover issue of a gate key upon achieving a proficient solo level.

If joining after January the fee's will be half those stated above.
